

KITCHEN GREASE FILTER MEASURING GUIDE

1. Use a good tape measure and remove one frame and measure.
If multiple different sizes, measure those too.
2. Measure all three dimensions in inches or millimetres, from **end to end (externals)**.
3. Write down the sizes and count the quantities of each in the table below.
4. Send us a **photo of your hood showing the cooking line underneath** (see picture) to info@shepherdfilters.com

PLEASE MEASURE THE EXTERNALS (END TO END)

KITCHEN GREASE FILTER MEASUREMENTS				
	HEIGHT (INCH / MM)	WIDTH (INCH / MM)	DEPTH (INCH / MM)	QUANTITY
SIZE # 1				
SIZE # 2 (if applicable)				
SIZE # 3 (if applicable)				
TRACK (if applicable)*				
CLIPS ON FRAMES: OTHER COMMENTS:	Y / N (please circle) QTY (if yes): <input type="checkbox"/> SEND US A PHOTO SHOWING CLIPS			

**If frames are less than 2 inches / 50mm in depth, please also measure the track(s):*
